Call for submission of innovative project proposals

Bihar Council on Science & Technology (BCST), Patna invites project proposals from innovators (resident of Bihar). The proposals should preferably be from the focus sectors namely, Green Technology, Clean Energy, Utilizable Smart Materials for industries, Waste to Wealth, Water and Sewage Management, Affordable healthcare and Agriculture.

The selected projects will receive financial support to convert their ideas into prototype (field trial) model of maximum Rs. 3.00 (Three lakhs) or 90% of the approved project cost. Grant will be released to the concerned institution/organization in installment of maximum 50% each to those projects that are approved by the Committee. Initially, first installment of maximum 50% of project cost will be released. The rest installment of grant will be released only after satisfactory completion of the first phase and submission of the utilization certificate of the first installment. The grant will be released to the Project guide. For detailed information, the policy guidelines for support can be referred from the Bihar Council on Science and Technology (BCST) website www.bcst.org.in.

Proposals neatly typed in prescribed format should be submitted by registered/speed post within 21 days from the date of advertisement.
